Since GDPR became a reality in the EEA/EU, Eva has practically spent all her time working with privacy issues. She has worked with data protection agreements, DPIAs, BCRs, codes of conduct, privacy policies and integration of privacy in ICT-contracts. Eva also acts as a DPO for a large international group. Recently, privacy in M&A and due diligence has become a prioritised topic.

She also works with ICT issues such as TMT/ICT-contracts and public procurement, covering AI, robotics, development contracts, cloud agreements, beacons etc. Eva has studied alternative dispute resolution. Her clients are both from the private and public sector. Both privacy and ICT-contracts are relevant issues in public procurement, and she assists both vendors and purchasers.

Eva often lectures on these matters, and have parttaken in several official Norwegian reports (NOU) on privacy, digitalization and society.
